THE ADVANTAGES OF AN SMC FLOOR RENOVATION SYSTEM

- ✓ Cost effective
- ✓ High wear & tear resistance
- ✓ Environmentally friendly
- ✓ No Landfill
- ✓ No downtime in production
- ✓ Dust free implementation
- ✓ Hermetically sealed & hygienic
- ✓ Increased lifetime (up to 10 years)
- ✓ Moisture & chemical barrier
- ✓ Standard IEC 61340-6-1

You've most likely walked on & admired one of our floors.

SMC Group has been providing floor installations, restorations & reinvigorations schools & organisations throughout Ireland, the UK and continental Europe for 20+ years.

- ✓ Marmoleum & vinyl floor restoration
- ✓ Wood floor refurbishment
- ✓ Polished concrete floor installations
- ✓ Heritage natural stone restoration projects

We are proud to be Ireland's #1

HOW IT'S DONE

Coloured & designed to your spec or transparent to keep your current design, our floors can be applied on PVC, linoleum, marmoleum, rubber, epoxy, PU as well as on many wooden floors.

1 The initial situation

2 Coating the edges

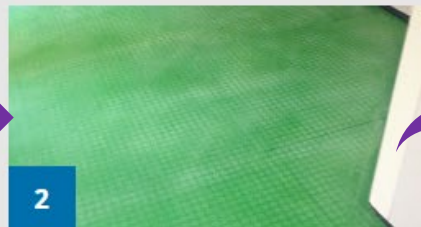

3 Coating the floor completely

4 On-top-sealer provides optimal protection

1 The initial situation

2 After strip cleaning & sanding

3 After On-Top-Coating

4 On-top-sealer provides optimal protection

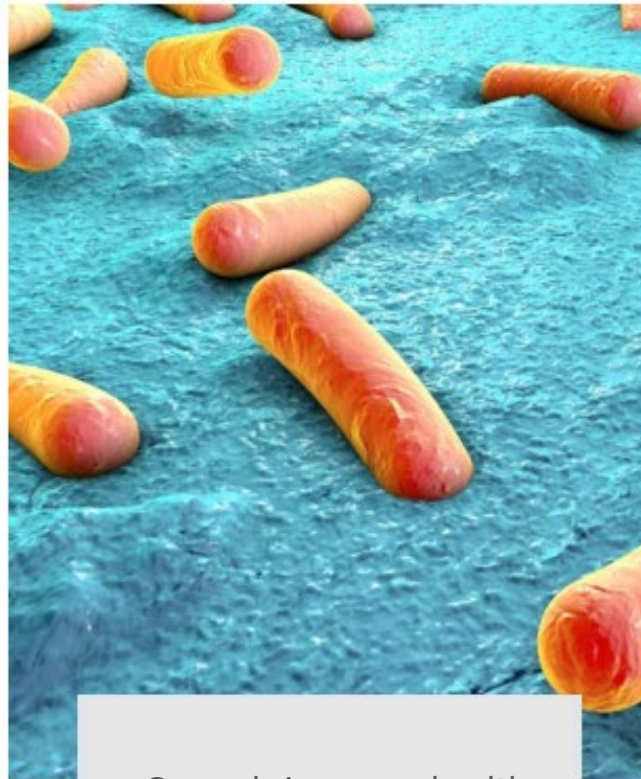

99.5% FEWER GERMS

Naturally, schools & universities are especially concerned about the cleanliness of their floors.

SMC Hard Floors are hermetically sealed, with no gaps or breaks in the surface, which means bacteria & germs have no place to hide & thrive.

In fact, 99.5% fewer germs are found on our floors after installation.

Germs bring many health risks, especially around children & the elderly.

Open joints and broken surfaces are a breeding ground for germs because disinfectants can't reach.

UPCYCLE & MAKE A DIFFERENCE

Upcycling is one of the most important things we can do for our planet. The climate crisis is a very serious matter & we all have to do our part.

SMC Hard Floor restoration means:

- ✓ Zero Waste - No landfill
- ✓ Environmentally safe products
- ✓ Very low emissions
- ✓ No un-necessary manufacturing
- ✓ No heavy machinery used

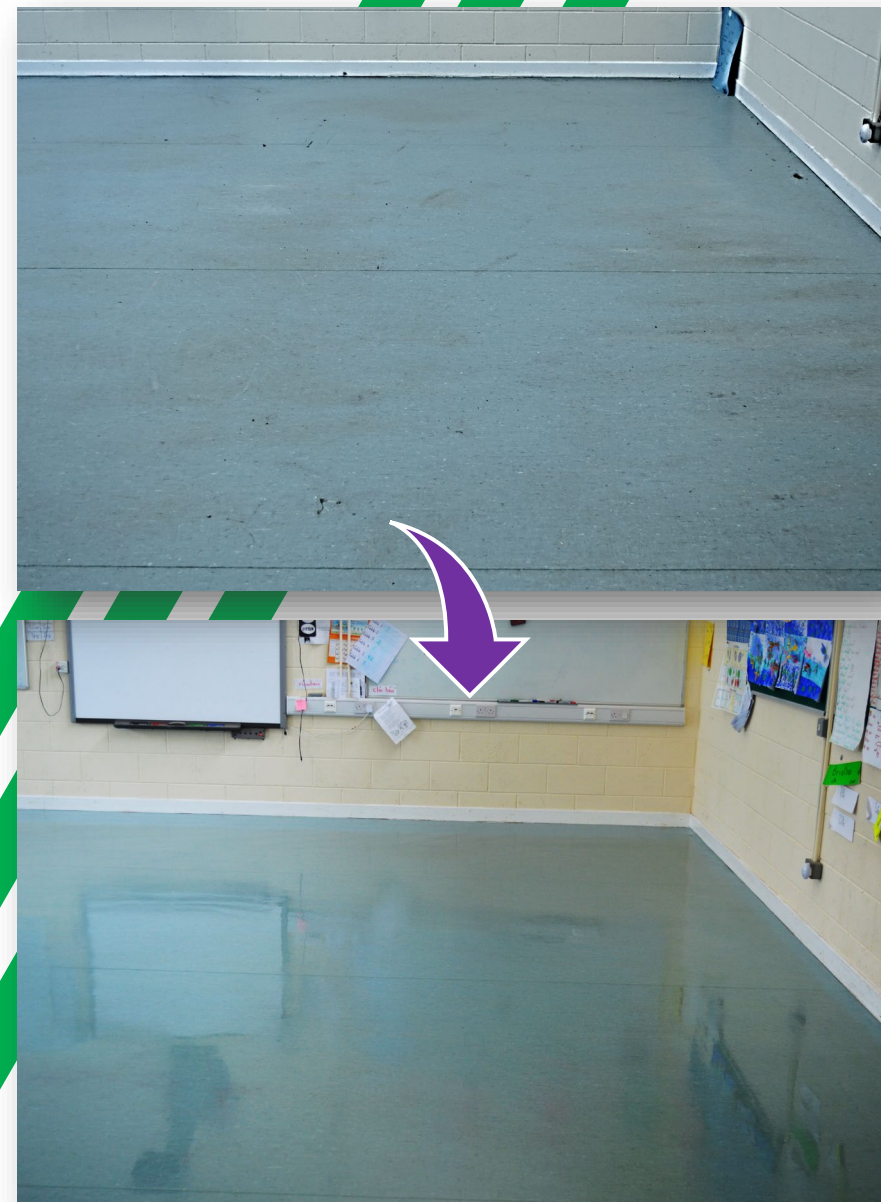

COSTS LESS THAN A NEW FLOOR

Installing a new floor is an expensive undertaking. Besides the time, energy, consultancy & admin costs to plan it, you also have the expense of removing your old floor AND the installation of the new floor to pay for and then costly maintenance to look forward to.

With an SMC hard floor restoration there's no need to remove an old floor, buy new materials, pay for builders, architects, planners, or admin staff AND they're far easier and cheaper to maintain.

It's a bit of a no brainer really.

A CLASS ABOVE THE REST

The classroom is the most important place in any school or university. It's the place where students learn, play & grow.

Studies have shown that a bright, colourful & energetic classroom can have a huge impact on academic performance & student wellbeing.

With an SMC floor restoration, you'll transform not just the physical space & environment, but the student experience too.

Colour, design & style. The possibilities are near-infinite.

A SPORTS FLOOR SHOULD BE RESILIENT

Just like those who play there...

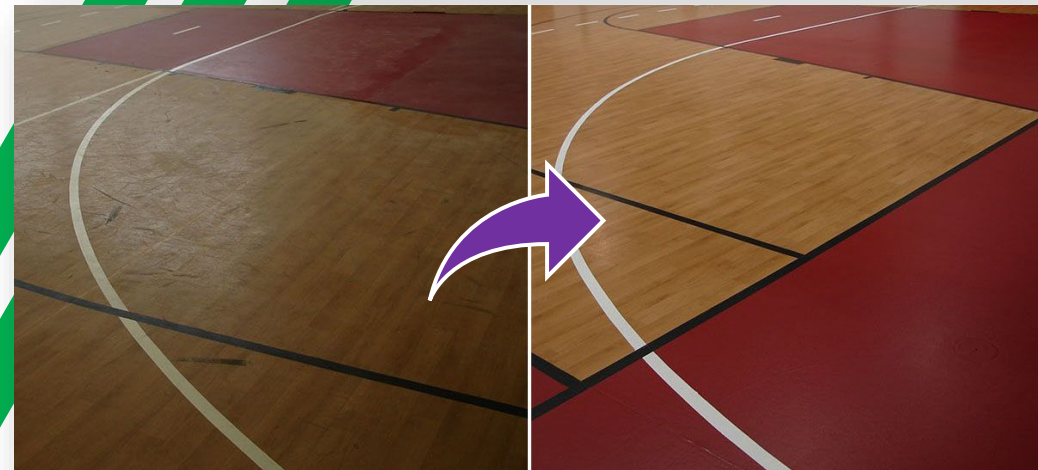

The sports hall is a place where children learn about the importance of staying fit & healthy, being gracious in defeat and humble in triumph.

Where friendships are forged & memories are made.

Reinvigorate your old sports & recreation spaces to prolong the floor's life & keep traditions alive.

Sports floors should be hard wearing, hermetically sealed with next-level anti-slip properties.

Start there and the rest will follow.

The pure joy on people's faces when they saw the change to their community hall said everything about the quality and skills of the SMC team.

~ Amanda
Sandymount Community Hall Manager

NEW AGE RECREATIONAL SPACES

Completely transform your hangout spaces with a modern, bespoke design that reflects your student's personality.

It has been widely and extensively reported that colour & design play a significant role in human perception in the learning environment. It affects the mood, performance & behaviour of students.

Having a bright, bespoke floor can bring out the best in our student's, making them more comfortable, outgoing & has even proven to help children perform better academically too.

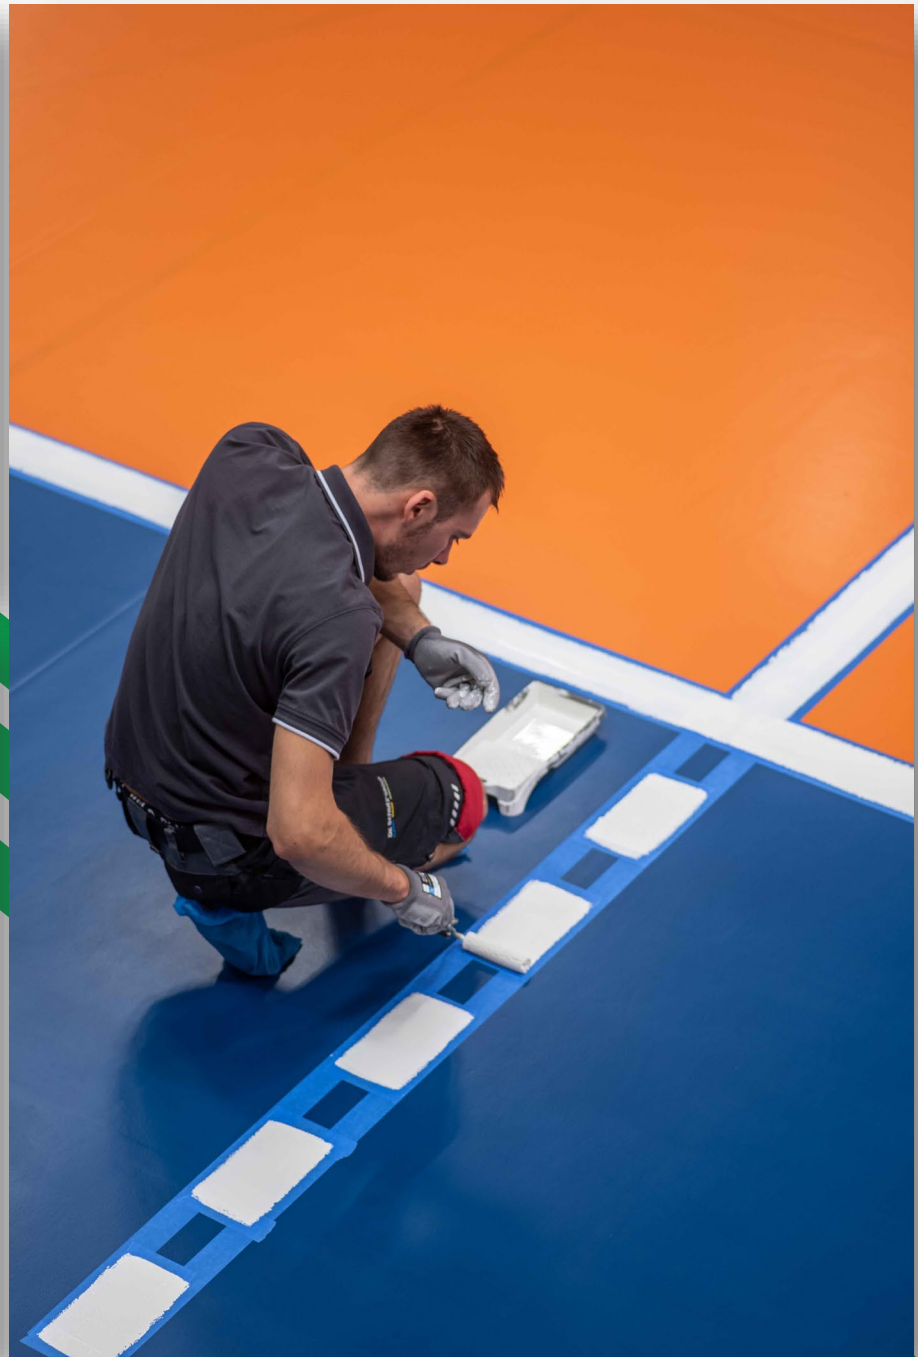

Give your floors a new look & transform your school into a more open & friendly environment.

BEFORE

AFTER

ART & GAMES ROOMS THAT POP

Art & games rooms should nurture the artistic process & and encourage children and teacher's alike to explore their creativity & express themselves fully.

A custom, bright & colourful floor, can take your students to the next level.

THE EASIEST MAINTENANCE

YOU'VE EVER HAD...

Your custodian will probably tell you, the halls & stairs require the most maintenance & the most vigorous effort.

Hallways, walkways & stairs are more often than not, the busiest places in any building, especially in schools & universities.

These areas are more prone to a large volume of foot traffic & with that comes a lot more wear and tare. A lot more.

Restoring or remaking your old marmoleum floors will give them new life, improve their durability & make them easier to maintain. Saving you time and money on maintenance.
